[REDACTED] has been informed from Bureau of the Budget sources that the office of Senator Schoeppel, Kansas, wished information as to the number of cars in CIA's possession and particularly the number with non-Government plates. Bureau of the Budget informed us that the Senator's office stated that if the information was not forthcoming they would subpoena it. I talked with Mr. Albright of the Senator's office, who states that they are making a survey of Government motor vehicles and would like to know the CIA figure. I explained the security problem to him and that we had no limousines requiring special appropriations. He stated that if we could not give him the figure would we send him an official letter to that effect and that if we could give him some figure it would be much appreciated.
